StyleLite Lightweight Panels

Introducing StyleLite Super Lightweight and Ultra High Gloss Panels.

Used by over 50 manufacturers of RV in Australia, EGR brings its world class lightweight decorative building panel to the USA in 2016. StyleLite panels are made by PUR laminating our 1mm thick top quality high gloss acrylic sheet to each side of a super lightweight plywood panel producing a cabinetry product which is unsurpassed for functionality, durability and aesthetics in the mobile transportation sector and any application where weight reduction is critical.

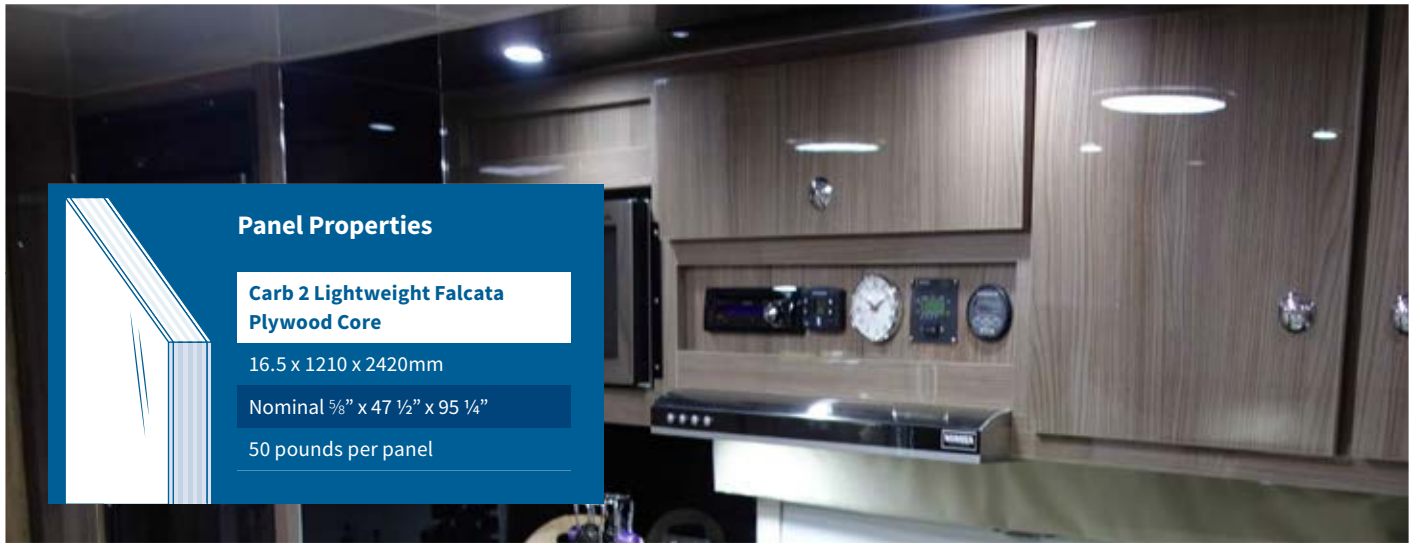

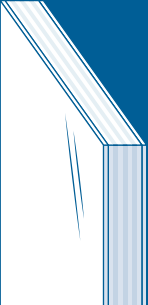

Features and Benefits
